

# Advantages of Utilizing BIM in Facility Design

Our presenter, Reid Ponx from Encompass is a registered Professional Engineer with over 20 years of experience in engineering, project design and management. He has been with Encompass since 1996. His responsibilities include oversight of the facilities engineering department which includes all civil, structural, mechanical and plumbing engineering. In this role, he uses his skills and experiences to oversee project management, project quality control and customer satisfaction. **Bring a friend, come and join us for an evening of education, networking and fun!**

**Please RSVP by Friday January 11th to Anne Pflieger at [akpnawic@charlesinc.com](mailto:akpnawic@charlesinc.com) or call 419-424-9733.**
